

Kitchen Dining & Bar Niche Store Category Structure for eBay

Description:

When creating a Niche or Specialty Store the most important thing to consider is to skip the main category on eBay. For example: when creating a Niche store for the Kitchen, Dining & Bar Category your first category will be “Bakeware”. I have created the exact category structure in this document. Remember, you are only allowed categories to go three levels deep. The main category and sub categories have been color coded to remove any confusion in creating proper category structure.

Note: Only use categories and subcategories of the structure below you plan on listing is, having empty categories for more than 30-60 days has been known to reduce traffic.
