

Overall grades for schools are calculated based on performance in three key areas, or **domains**. We take the **higher score** between how much students know (Student Achievement) or how much better students are doing than last year or than peers in similar schools (School Progress). We then consider whether performance gaps exist among different groups of students (Closing the Gaps).

This design reflects a commitment to recognizing high student achievement and the impact of highly effective educators while maintaining focus on the students most in need. Ratings options for the overall score out of 100 are as follows:

Rating	Score	Descriptor
A	90-100	Exemplary Performance
B	80-89	Recognized Performance
C	70-79	Acceptable Performance
D	60-69	Performance that Needs Improvement
F	0-59	Unacceptable Performance

Not Rated: Indicates that a district or campus does not receive a rating for one or more of the following reasons:

- The district or campus has no data in the accountability subset.
- The district or campus has insufficient data to assign a rating.
- The district operates only residential facilities.
- The campus is a juvenile justice alternative education program (JJAEP).
- The campus is a disciplinary alternative education program (DAEP).
- The campus is a residential facility.
- The commissioner otherwise determines that the district or campus will not be rated.

The following definitions are intended to support understanding and interpretation of the School Report Card (SRC) by defining key terms used in SRC reports. Additional information is available in the [2023 Accountability System Rating Manual](#).

Annual Dropout Rate: Annual Dropout Rate (Gr 9–12) is reported for high schools only. The annual dropout rate is the number of students who dropped out (in grades 9–12) expressed as a percentage of the number of students in attendance in grades 9–12 at any time during the 2021–22 school year.

Attendance Rate: The percentage of days that students were present based on student attendance for the entire school year. Only students in grades 1–12 are included in the calculation.

Class Size Averages: Class sizes are calculated from teacher class schedules. For example, the total count of students in science is divided by the count of science classes. Elementary classes are shown by grade; secondary classes are shown by subject.

College, Career, and Military Ready: The percentage of annual graduates who demonstrated college, career, or military readiness (CCMR) by meeting at least one of the nine criteria provided in Chapter 2 of the [2023 Accountability System Rating Manual](#).

Distinction Designations: Distinction designations are awarded in recognition of outstanding achievement in specific areas.

Economically Disadvantaged: The percentage of economically disadvantaged students is the count of students that are eligible for free or reduced-price lunch or other public assistance divided by the total number of students.

Emergent Bilingual/EL: Students whose primary language is other than English and who are in the process of acquiring English.

Expenditures per Student: This is calculated as total expenditures for 2022-23 divided by the total membership for 2022-23. For more information, contact the Office of School Finance at 512-463-9238. For a detailed report, see the 2022–23 [PEIMS Financial Actual Reports](#).

Federal Graduation Rate (4-Year): This indicator shows the status of students after four years in high school and uses the National Center for Education Statistics (NCES) dropout definition and the federal calculation for graduation rate. For further information, see the report [Secondary School Completion and Dropouts in Texas Public Schools, 2022-23](#).

Instructional Expenditure Ratio: This is calculated as instructional and related expenditures for 2021–22 divided by total expenditures for 2021–22. For more information, contact the Office of School Finance at 512-463-9238. For a detailed report, see the 2021-2022 [PEIMS Financial Actual Reports](#).

Instructional Staff Percent: The percentage of the district's full-time employees (FTEs) whose job function was to provide classroom instruction directly to students during the 2022-23 school year. For more information, contact the Office of School Finance at 512-463-9238.

Longitudinal Rates: These indicators show the status of students after four years in high school (4-Year Longitudinal Rate), after five years in high school (5-Year Extended Longitudinal Rate), or after six years in high school (6-year Extended Longitudinal Rate). The four-year rate includes students who first attended ninth grade in 2018–19, showing their final status with the Class of 2022. The five-year rate includes students who first attended ninth grade in 2017–18, showing

their final status at the end of 2022. The six-year rate includes students who first attended ninth grade in 2016–17, showing their final status at the end of 2022. These show the percentage of students who graduated, received a Texas Certificate of High School Equivalency (TxCHSE), continued high school, or dropped out.

Membership: See Total Students.

Mobility Rate: The percentage of students who have been in membership at a school for less than 83 percent of the school year (i.e., missed six or more weeks).

Race/Ethnicity: Students are reported as African American, Hispanic, White, American Indian, Asian, Pacific Islander, and two or more races.

RHSP/DAP Graduates: The percentage of graduates who, after four years, were reported as having satisfied the course requirements for the Recommended High School Program (RHSP) or Distinguished Achievement Program (DAP). It excludes FHSP graduates.

RHSP/DAP/FHSP-E/FHSP-DLA Graduates: The percentage of graduates who, after four years, were reported as having satisfied the course requirements for the Recommended High School Program (RHSP), Distinguished Achievement Program (DAP), Foundation High School Program (FHSP) with an endorsement (FHSP-E) or the distinguished level of achievement (FHSP-DLA).

SAT/ACT Results: The report provides three indicators: (1) Tested shows the percentage of 2021–22 and 2020–21 graduates who took either the SAT or the ACT, (2) Average SAT Score for 2020–21 and 2021–22 graduates, and (3) Average ACT Score for 2020–21 and 2021–22 graduates.

Special Education: The population of students served in special education programs.

STAAR: The State of Texas Assessments of Academic Readiness (STAAR®) is a comprehensive testing program for public school students in grades 3–8 or high school courses with end-of-course (EOC) assessments. The STAAR program is designed to measure to what extent a student has learned, understood, and is able to apply the concepts and skills expected at each tested grade level, or after each course for which an EOC assessment exists. Students are assessed in reading (grades 3–8), mathematics (grades 3–8), science (grades 5 and 8), and social studies (grade 8). End-of-course assessments are given for English I and II, Algebra I, Biology, and U.S. History. Measures for the STAAR are shown: STAAR Percent at Approaches Grade Level Standard or Above, Meets Grade Level Standard or Above, and Masters Grade Level.

Total Students: This is the total number of public school students who were reported in membership on the October 28th, 2022 snapshot, at any grade from early childhood education through grade 12. Membership differs from enrollment because it does not include students who are served by the district for less than two hours per day. For example, the count of Total Students excludes students who attend a non-public school but receive some services, such as speech therapy, for less than two hours per day from their local public school.

Special Symbols: The 2022–23 SRC uses the following special symbols:

- An asterisk (*) is used to mask small numbers to comply with the federal Family Educational Rights and Privacy Act (FERPA).
- A dash (-) indicates there were no observations reported for this group.
- n/a indicates that the data are not available or are not applicable.
- A question mark (?) indicates data that are statistically improbable or were reported outside of a reasonable range.
